SAVE A HEART FOUNDATION

California
CHAPTER

Save A Heart Foundation in association with the California Chapter of the American College of Cardiology and the Israel Heart Society

Save A Heart Foundation (SAHF), established in 1980, has provided funding to support forty research fellowships for exceptionally gifted Israeli cardiologists in training. The SAHF fellows have been extremely devoted and productive researchers and have returned to Israel, equipped to be leaders in their respective fields.

Through the vision and leadership of Dr. Norman Lepor, Save A Heart Foundation has joined forces with both the California Chapter of the American College of Cardiology and the Israel Heart Society to enhance this important endeavor. The fellows will be matched to mentors for a two-year research program at the most prestigious academic cardiology programs in California, including Cedars-Sinai, University of Southern California, Stanford, and the various campuses of the University of California.

Save A Heart Foundations relies solely on private donations.

RSVP by September 15th | Tribute Ad Deadline September 10th
