

5TH NORTH AMERICAN ECHOCARDIOGRAPHY COURSE ON CONGENITAL HEART DISEASE

Presented by The Lucile Packard Children's Hospital Division of Pediatric Cardiology

April 30 – May 2, 2020

Bechtel Conference Center at Encina Hall, Stanford University

Early bird discount! Register by 3/30/20

The 5th North American Echocardiography Course on Congenital Heart Disease provides an introduction to pediatric and congenital echocardiography and the imaging of congenital heart diseases. Aimed at Pediatric Cardiologists, Congenital Heart Disease Specialists and Cardiac Sonographers, this conference takes a unique approach that combines learning cardiac morphology from pathologic specimens and relating this knowledge to echocardiographic evaluation, both preoperatively and postoperatively for patients with congenital heart disease.

CHAPTER

5TH NORTH AMERICAN ECHOCARDIOGRAPHY COURSE ON CONGENITAL HEART DISEASE

Join us April 30 – May 2, 2020 at Stanford University for a chance to improve your knowledge around:

- Performing an optimized pediatric echocardiogram
- Analyzing the morphologic components of specific CHD
- Developing strategies to correctly identify the morphologic components of CHD by echocardiography
- Recognizing common postoperative echocardiographic findings in patients with CHD
- And more!
